CAT.NO: DF 003
GENRE: BLACK METAL
FORMAT: DIGIPAK-CD [RE-ISSUE]
BARCODE: 7320470079836

OVERVIEW:

This is Dark Funeral third full-length album and was originally released in 2001. At the time of the release "Diabolis Interium" was, and is still considered by many, the landmark release in the band's history. With the help of producer Peter Tägtgren and studio technician Lars Szöke, Dark Funeral have created the MASTERPIECE of their recording careers thus far, a record which will surely be considered as a milestone in the evolution of black metal in the future. Beside the usual highspeed-songs DARK FUNERAL have also slowed down for the track 'Goddess Of Sodomy', which resulted in a mighty hymn of darkness. 'An Apprentice Of Satan', already known from the last EP, was reworked for "Diabolis Interium". Other highlights of the CD are 'Armageddon Finally Comes' and the brutal opener 'The Arrival Of Satan's Empire' (which most would agree that this track is THE crown jewel of the Dark Funeral catalog). "Diabolis Interium" is an absolute MUST for every serious metal-collection, not only black metal fanatics!
